## Water, Sewage and Incineration Set For Vote on Sept. 11th

### Questions Divided With Water Alone Others As A Unit

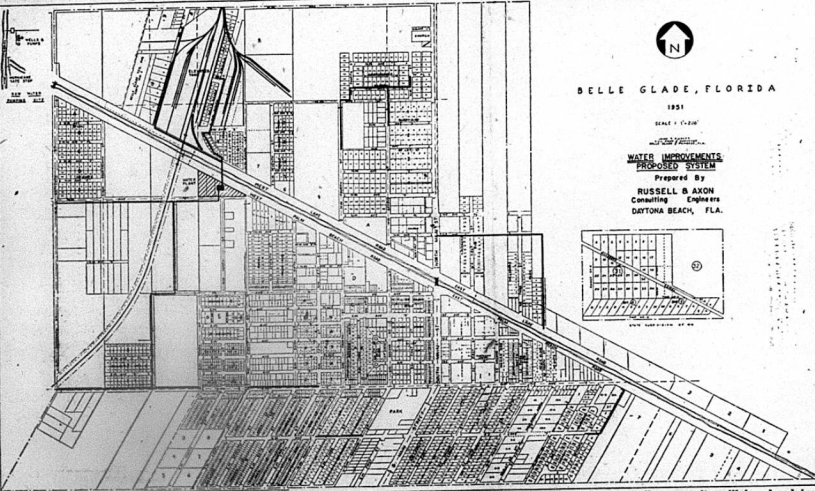

The Belle Glade City Commission voted Wednesday to place the water, incineration, and sewage questions before the people during the coming September 11th election.

The decision came after an extensive period of discussion between members of the Commission, Jess Russell, senior partner of the firm of Russell and Aeron, consulting engineers for the city on the issue, and E. C. Hodge of Van and Ingram, fiscal agent for the city.

The problem facing the commission was whether to place the issue before the people as a single package or break down each issue and present it independently for the vote of the people.

The principal deterrent was the fact that incineration cost will triple in cost if separated from the sewage plan. For this reason, Mr. Russell could not give his recommendation to such a procedure. Instead, he recommended to the commission that they bring the issue before the people in two parts; first, allow the people to vote on water improvement plan independently with that outcome not depending upon passage of the entire package of improvement; second, place the incineration and sewage questions before the people as a single package so that they may approve or disapprove both plans together. This would mean that incineration could not survive without incineration and vice versa.

The commission voted 4 to 1 in favor of this plan. The difference of opinion was brought about by a possible desire to save money. It is approximately a quarter of a million dollars. It is felt by the consulting engineers, the city manager, and others that Belle Glade can qualify under a recent bill passed by Congress for a grant in this amount to be used by the city for sewage. Commissioner Ellis felt that it

should be more wise for the commission to wait until full information concerning the grant can be obtained; whether Belle Glade can definitely get such aid and in what amount. Assistance (Continued on Page Eight)

### Football Practice Begins Next Monday

Coach Jim Maynor reports that football practice will begin Monday, August 13th. Boys will report to High School Gymnasium at 5:00 p. m. ready for practice.

This will be a closed practice. No spectators will be allowed inside the gates until after September 21st, please.

### Celery Growers Are Warned By Station

The Everglades Experiment Station issued a warning yesterday to all celery growers in the Glades area. Three serious diseases have been discovered in celery need beds at the station. They are Bacterial Blight, Early Blight, and Bacterial Blight. The latter seems to be especially bad in several of the plantings.

The Experiment Station recommends that growers start immediately with a five day spray program to combat the menace. The following mixtures are recommended for spraying the beds based on 100 gallons of water. Add four pounds of Spergon, two pounds of Zineb, and fifty parts-per-million of Streptomycin. An alternate mixture may be used by substituting four pounds of a neutral copper in place of the Spergon.

Trade names for the Streptomycin are Agrimycin, Agristhene, and Phytomycin. Those for Zineb are Perstat or Dithane Z-78. For a neutral copper Copper A or Basic Copper Sulphate may be used.

The Station advises that in the event of very rainy weather, the sprayings be conducted twice a week. If the above plan is followed, growers need have no fear from diseases in celery beds.

### Two Scholarships Awarded By Winn-Dixie Stores Fdn.

The annual Winn-Dixie-Florida Farm Bureau college scholarships have been awarded to a Hardee County girl and an Escambia County girl according to T. K. McClure, Jr., Executive Vice-President of Florida Farm Bureau Foundation.

Sue Roberts, daughter of Mr. and Mrs. Kelly Roberts, Zolfo Springs, is the girl, and Jimmy Cunningham, son of Mr. and Mrs. James Cunningham, Canaan, is the boy.

The scholarships are worth \$1,000 each in the past, and are offered each year to a son or daughter of an active Farm Bureau family.

The winners are selected by a Special Awards Committee representing the State-wide organization. The funds are provided by the Winn-Dixie Stores Foundation. This Foundation is supported by Kwik Chek, Table Supply, Margaret Ann and Winn-Dixie Food Stores in Florida.

### Summer Programs Have Best Year

For the eighth successive year the enrollment in the Summer Enrichment Programs has surpassed the total of the previous year. The program sponsored by the Board of Public Instruction under the Minimum Foundation Program of Florida came to a close on July 27th. Final reports show that a total of 10,683 children were registered throughout the county. This is 1400 children more than enrolled last year.

In Belle Glade the enrollment jump was consistent with the overall county increase. The recreation program the city park had an enrollment in excess of 300 while the band program boasted a record 75 in attendance. In both cases this reflected an increased interest in the summer programs.

Supply Margaret Ann and Winn-Dixie Food Stores in Florida.

Overall attendance was helped by the formation of several new centers throughout the county. Belle Glade was the recipient of one of these with the formation of the recreational program at the Community Center under the direction of Mr. Wayne Fortenberry. He reported the program a huge success.

These increases along with similar increases in other local centers such as South Bay and Lake Harbor, as well as the recreational program for the Colored, were what helped to make the overall picture so successful.

The program in many areas was coordinated with existing community recreational programs. In other areas this was the only organized summer program for the children. A total of 112 teachers at the Palm Beach (Continued on Page Eight)

### Grabers Take First Place In Standings

Grabers defeated Grift's Tuesday night to take over first place in the League. The Jayces defeated Gladys Cleaners 12 to 8. The Jayces have won two straight after losing 11 straight.

Friday will wind up the season with the exception of two "rain out" games.

There will be a meeting of all softball managers before the first game at Memorial Field Friday night in order to decide the playoffs.

### National Guard Army And Roads Get Okay By County Commission

Approval of plans for construction of a National Guard Army at Belle Glade and construction of Muck City Road was voted this week by the County Commission.

County Engineer Steve Middleton told the commission that a contract for the Muck City Road had been under study for several weeks since the \$290,500 price tag on the job had exceeded original estimates for the work. Middleton said he had been unable to negotiate any changes in plans for the road to effect a saving and recommended that the original plans and contract be approved.

County Commission Chairman Paul Rardin told the board that the city of Belle Glade and Palm Beach County crews had completed preliminary work for the Belle Glade Army and that the site was ready for the new Guard headquarters.

The board reviewed construction plans for the Army and voted their approval.

In another project in the Glades, the commission approved a \$120,000 appraisal for right of way at South Bay to rebuild the intersection of State Roads 27 and 80. The project calls for four lane both ways in the heart of South Bay.

### US 27 To Have New Green Hi-Way Signs

Change of several thousand U. S. numbered route markings on Florida highways to five basic colors, as an aid to touring motorists and to help eliminate a serious traffic hazard, will start within the next 30 days, it was revealed August 8, by Wilbur E. Jones, State Road Board chairman.

Florida will be the first state in the nation, Jones said, to standardize all U. S. route signs by color. Five basic colors will be used on reflectorized signs to designate Federal routes throughout the state.

First route to be marked will be U. S. 27, which extends from the Graglia line, north of Tallahassee, through the center of the state to Miami, Jones said. This route will be marked with green signs its entire length, with the markers placed every 2 1/2 miles on alternate sides of the road.

The Road Board chairman said that use of colors on the new signs will be a definite safety factor by enabling the motorist to more readily follow the route by observation of the continuous color, as well as by number.

He pointed out that use of color will be of particular value at intersections where, often, a half dozen or more different route signs on one standard face the fast moving motorist.

Signs on U. S. 1, Jones announced, will be marked in red to match similar red U. S. 1 signs recently erected in Connecticut and Washington, D. C. Jones explained, "to make sure the motorist is in the pattern of other states. This survey revealed that, to date, only one connecting route in the District of Columbia have started similar programs, although others are in the planning stage."

## A 20 Inch Rainfall Deficiency Emphasizes Near Record Low Lake Elevation of 10.38

### 15 Inches Of The Deficiency Occurs Since Jan. 1 '56

Broadfoot suggests maybe two good rains needed to even up.

"Sometime ago I was quoted as saying that one good rain, which usually accompanies a hurricane, would be needed to equalize the water table in the Glades area. Now I'm not sure whether one will be enough," says Engineer Broadfoot, of the US Engineers at Clewiston. The Jacksonville office of the U. S. Engineers and Mr. Broadfoot say that the 10.38 lake level is "near, record low" for the Lake, "and there's no relief in sight."

In checking records of rainfall and the stage of the water, precipitation of 46.9 and 35 inches for the years 1954-55 and '55-56 respectively and a long time average rainfall of approximately 51 inches. This gives 4.3 and 17 inches deficiency for the periods respectively.

The Everglades Experiment Station shows a five-year average rain fall of 57.66 with 38.3 inches for '55-56, giving a deficiency of 18.36 inches. The U. S. Sugar figures for the area covered by their cane farms show an annual average of 57.64 inches and a deficiency of around 21 inches.

In the City of Belle Glade the gauge at the South Florida Conservancy District office shows a loss since January 1st from the average of 6.31 inches with 22 inches having been recorded there.

### Local FFA Chapter Attends AIC Meet

Members of the Belle Glade Chapter of the Future Farmers of America, as well as other prominent citizens connected with farming cooperatives, returned Saturday from North Carolina State College in Raleigh, North Carolina, where they spent four days at the annual meeting of the American Institute of Cooperation.

The institute, which is the educational and research agency for farmer cooperative business, annually holds a conference at a Land-Grant College for farm organization leaders, rural youth and young farmers, and state and federal government farm workers.

Over 3,000 persons, including 1,000 youth attended the Raleigh meeting. Members of the local FFA chapter who attended are Louis Friedheim, chapter president, John Prevatt, Cecil Harrell, Billy Bowen, and chapter sponsor Mr. Sam-Lovell. Others from the Belle Glade area who attended are Mr. and Mrs. Walter E. Schmitt, Mr. L. Price, and Mr. George Young, manager of the Glades Livestock Market.

On Tuesday morning between six and ten a. m. Leonard Bros. of Miami will haul to the lake-side Canal Point on Road 790 the body of the large crane which McKenzie has been using on the West Palm Beach Canal work.

The machine is being dismantled for transfer to Venezuela where it will be assembled and put to work.

### Chief Goodlett Attends FBI Associates Meet

Belle Glade's Chief of Police, Charlie Goodlett left Tuesday to attend a two day retraining session of the FBI National Academy Associates, Florida Chapter, in Ft. Lauderdale, with Hialeah Chief Herbert W. Warner, President as presiding officer.

J. Lester Holt, Chief of Police of Fort Lauderdale, will play host to about 50 graduates of the FBI's National Academy. Registration of the graduates who are top-ranking law enforcement officers from all over the state, will be at the Lago Mar Hotel in Fort Lauderdale.

Meetings and discussions of current problems in law enforcement will be held at the Lago Mar.

FBI offices operating in Florida from the Miami and Mobile Divisions are providing instruction material through C. E. Weeks and Fred Halford, Special Agents in Charge of the Miami and Mobile Divisions respectively. Inspector J. S. Rogers of the FBI National Academy at Washington, D. C., will be featured on the program.

The convale will conclude with a banquet at the new Yankee Clipper Hotel on August 9th.

### County Draggin' You Tell Us What

Florida's sales tax collections for July exceeded June's and beat July's of last year by 20%.

Florida's sales tax collections for July exceeded June's and beat July's of last year by 20%.

A spokesman for the FEC said the railroad had to add 28 cars to northbound trains over one recent weekend and it looks like more will have to be added during future weekends, as all extras are grabbed up as soon as made available.

During June FEC handled 1500 more passengers in Miami than it did in June 1955, with indications that July will beat last year by a much greater margin.

Flagger county noted an increase in July this year over same period last year in sales tax collections. Brevard County 48%, Sarasota County 40%, Martin 36%, Indian River 30%, Broward County 28% and PALM BEACH 22%.

What if these counties have that Palm Beach doesn't have in natural or man-made attractions for tourists?

Smallest declines were in the Mountain and Pacific Coast States.

### Okeelanta Bridge To Be Completed By Fall Season

The national steel strike now ended, had its effect on Palm Beach County by delaying construction of a bridge in the Everglades which links part of an important farm road network.

The bridge is a span across the Bolles Canal at Okeelanta which in turn links the farm road, used extensively by farmers during the growing season.

County Commission Chairman Paul Rardin, Canal Point, this week asked that the county board take all available means of stepping up action for construction of a new bridge across (Continued on Page Eight)

# Move Underway To Provide Adequate Health Center Bldg.

Local ramifications of transfer of title of a State Health Center building in West Palm Beach, to Palm Beach County, are being studied this week by the county commission.

Under the plan, title of the state building will be given to the county which will in turn sell the property to a private party for partial payment of construction of a new health headquarters to serve both the state and county health departments.

Set what Chairman Paul Rogers termed a new "track record" by finishing its business session in 33 minutes. The weekly meeting usually runs near two hours.

## The State of Small Business

You've no doubt heard it said that small business is in a bad way these days. A report from the Chamber of Commerce of the United States, based on government figures, tells a very different story. In the last year corporations lost more than \$250,000,000 have shown the greatest increase in profit margins. They did far better than the average for corporations of all sizes. It is true that business failures have increased since 1950. However, the number of new businesses shows a greater increase—36 per cent against 24 per cent.

So the Chamber asks this apt question: If the pessimistic reports about small business are true, how could such large numbers of new businesses spring up?

## The Ball Is Rolling

It is encouraging to be able to report that sentiment for doing something about the antiquated federal income tax is growing and growing in official circles as well as among the millions of other people who must do the paying.

A short time ago, for instance, a great deal of approval was given to an American Weekly article by former Commissioner of Internal Revenue Coleman Andrews, in which he urged that the income tax be repealed and abandoned, and that an entirely new and more equitable system of taxation be devised to take its place.

Other authorities don't believe reform should go this far. But they do agree that major changes are necessary. Representative Daniel Reed, of the all-important House Ways and Means Committee, states that the top bracket income tax rate, now 91 per cent, should be greatly reduced, that all bracket rates should be graduated downward to conform to the new top rate, and that the law should be simplified by the elimination of as many special exemptions as possible. Representative Mills of Arkansas also a member of Ways and Means, has expressed similar views. Actually, even a very substantial reduction in top bracket rates would have relatively small effect on government revenue—for the reason that comparatively few people are in these income groups, and their payments make much of a dent in our incredibly big federal budgets. Yet confiscatory taxation hurts the whole country by depriving it of investments that otherwise would be made in productive enterprise—and would create jobs and opportunities for us all.

The ball of tax reform is rolling. May it swiftly gather momentum.

## Slicing Your Beef Dollar

"Your dollar paid for beef is sliced many ways on its way back to the rancher who supplied the original calf," says the American Meat Institute.

Just how that slicing goes is certainly of interest to consumers, many of whom no doubt wonder if financial shenanigans are involved. Here's the story, based on U. S. Department of Agriculture figures, for a typical choice grade beef steer in the 1954-55 period.

The beef eventually sold at retail for \$293.17. The retailer grossed \$51.03 on the carcass—and out of that he had to pay all his costs and taxes, and earn some kind of a profit.

The meat packer paid \$247.40 for the steer and sold the carcass for \$242.14—a loss of \$5.26. He also had to pay shipping charges on the carcass. He was able to make ends meet by selling the inedible by-products for \$17.68. His net return for turning 1,000 pounds of steer into meat was \$14.45.

The feeder had a net return of \$12.57 for taking care of his part of the job. And out of that he had to pay the costs of feed, labor and shipping.

Finally, the rancher received \$129.47. But he too had his bills to pay—marketing expenses, feed and the many other costs of carrying the herd which produced the steer.

It looks like the slices of your beef dollar are pretty fairly distributed.

## You Can't Clip A TV Program!

Dorothy Kilgallen, the columnist and television star, recently had something pleasant to say about newspapers as reading matter.

"You can read on a train crossing the desert or on a plane at 17,000 feet above the Atlantic—no static, no fading, no blips," says Miss Kilgallen. "You can read in a bathtub or while hanging out a pole in a crowded bus. You can read as much or as little as you want, as fast or as slowly as you want."

"And if you read something you like, you can tear it out and save it to read again on days of major rain and television. I am gainfully employed by both, but I must admit they have their drawbacks. Did you every try to clip a television program and paste it in your scrapbook?"

Here's why the newspaper holds its dominant place in the homes and hearts of Americans. And here is why—to touch on the world of commerce from which all of us draw our livings—the newspaper remains an unsurpassed means of advertising goods and services.

## Our Weak And Flabby Youngsters!

Writing in The American Magazine, John B. Kelly asks a startling question: Are we becoming a nation of weaklings?

Mr. Kelly—who was U. S. Director of Physical Fitness during World War II and was a famous athlete in his own right—says that "American youngsters today are weaker and flabbier than those in many other countries, and they are growing softer every year." He cites the results of a scientific study of more than 5,000 children, ages 8 through 18, in this country and in Europe. Almost 58 per cent of the American youngsters failed in one or more of six basic strength and flexibility tests, as against 87 per cent for the Europeans.

Why should this be a shocking case when, as Mr. Kelly says, our children "get better nutrition and medical care than those of most other countries?" The answer seems to be that our children are leading increasingly sedentary lives. They ride instead of walking—they devote more time to the TV set than to sports. So, in this case, the blessings of "the more abundant life" can be a danger.

The problem is solvable. Mr. Kelly believes that schools

## Nell Killough Takes First Place in Show

Nell Killough, a fourteen year old member of the highly skilled Belle Glade High School Majorette Squad, was crowned top honors in Malcolm Miller's Talent Scout Show by a near capacity crowd Thursday night, August 3rd, at the Hugo Theatre. Miss Killough won with a flawless routine of baton twirling which included many difficult tricks and twirls.

The crowd was captured by her amazing technique and charm. Mr. C. P. Dulon, the man with the guitar, sang his way to second place with two of his own compositions, "If Your Heart Were Broken" was his best number and received a roar of applause from the audience.

A diminutive lass named Linda Sue York took third place honors on an otherwise weak bill of talent.

Mr. Malcolm's guest stars from Pahokee saved the show and put the patrons in a pleasant mood. The Everglades Ramblers billed as an extra added attraction, brought down the house with their local and popular music. Miss Brenda Alderman and Patsy Crosby performed a clever dance routine.

Mr. Smiley Williamson offered two numbers and Dicky Houtbaw bowed away with ear-splitting applause with his renditions of "Cattish, Take a Look at That Worm," and "Blue Suede Shoes."

The Mathis-Bone Appliance Company were hosts for the evening's entertainment.

About twenty people attended the picnic dinner Monday night at Municipal Park given by Rev. and Mrs. P. E. Nelson complementing Mr. and Mrs. Harry Kinney and son of Arcadia, who were guests at the Nelson home Monday and Tuesday.

### Jerry Burry To Speak At Methodist Church

Rev. H. E. Garrett and family left Monday for a three week vacation in West Florida visiting relatives. During his absence the pulpit at Community Methodist Church will be filled by guest speakers. This Sunday Allan J. Burry will speak. His topic Sunday morning will be "The Tragedy of Agrippa."

Jerry is well known in Belle Glade, having graduated from the local high school in 1932. He graduated in June from Northwestern University, Evanston, Illinois, with a Bachelor of Science in Speech. While at Northwestern, Jerry was president of the Illinois Methodist Student Movement and was active in many Methodist Youth activities. He was a Methodist delegate to the United Student Christian Council at the World Conference at the World Council of Churches. He was one of the founders of the Group Leadership Training Program at Northwestern University, the first in the nation. He was president of the Student Christian Council at Northwestern, the interdenominational coordinating body. Jerry has served as Youth Director at the Community Methodist Church since graduating from College in June. He will enter Union Theological Seminary in New York this fall to study for Christian ministry. While at the Seminary he will be Youth Director at the Community Methodist Church in Brooklyn.

### "Stewardship" Proves Interesting Program For Baptist Circle

A most enjoyable discussion was held by the First Baptist Church of Belle Glade when they met Tuesday night at the home of Mrs. M. J. Whitaker. Mrs. Junius Harris led the group in a study of "Stewardship and Mission Study." Interestingly brought out in the discussion was the fact that God intended that people grow in grace, spirit and power, and be constantly aware of a program of self improvement daily—to grow physically alone is not his program. Assisting Mrs. Harris were Mrs. Barney Collier, Mrs. Paul Higbee, Mrs. Wendell Wells and Mrs. Edwin Rice.

### Gresham Family Leave For Annual Assembly

Rev. and Mrs. J. M. Gresham and family left the first part of the week to attend the annual assembly of the Church of God to be conducted in Memphis, Tenn., beginning August 10. The Greshams will be accompanied by their daughter and son-in-law, Mr. and Mrs. J. M. Williams in Ft. White. The family plan to return August 23.

### Wendell Carpenter Returns Tuesday

Wendell Carpenter, Director of Music and Education will be in office Tuesday after returning from a two weeks vacation. All choir members will want to personally welcome him home by being at the regular choir practice Wednesday night.

## Vacation Church School A Success

The Community Methodist Vacation Church School has closed for the summer and has proved a wonderful success. The average daily attendance was 110 children for the entire period.

Children who attended the Church School learned many wonderful facts about the Christian faith.

Those who worked in the school the last week were: Mrs. Mendel Luce, Mrs. J. A. Baker, Mrs. E. A. Wolf, Mrs. W. E. Scheffler, Mrs. V. R. McDonald, Mrs. Alice Van Landingham, Mrs. Fred Raulerson, Mrs. Warren Battle, Mrs. Floyd Rider, Mrs. Harold McKee, Mrs. C. L. Connel, Mrs. R. P. Mackey, Mrs. S. K. Smith, Jr., Mrs. Harmon Close, Mrs. Zelma Betner, Mrs. J. W. Rawls, Mrs. Robert Davis, Mrs. D. W. Harris, Mrs. J. E. Williams, Jr., Mrs. John L. Evans, Mrs. Sam Loughridge, Mrs. Edw. Killough, Mrs. Dora McWhorter, Mrs. M. R. Beselle, Jr., Mrs. J. A. Ponder, Mrs. W. S. Ingram, Mrs. Vernon Powers, Mrs. Richard Hodges, Mrs. Spott, Mrs. Jerry Burry, Mrs. J. E. Williams, Jr., Mrs. H. E. Galt, Mrs. Emil Wolf, and Floyd Rider.

### Who Is St. Patrick?

The question is asked each year by thousands of Americans as they tune in their radios and television sets on or about March 17.

Better yet, these wondering persons throw up their arms in dismay as program after program praises their Irish-American neighbors and extols the merits of their patron saint.

Patrick was the first Christian who brought the Christian faith to Ireland. He was a British slave who was taken to Ireland at the age of 16. He escaped and returned to Ireland to preach the Christian faith. He was killed in 461.

### Presbyterian Circles Hold Monthly Meeting

Circles One and Two met together at the home of Mrs. Urban Peising Tuesday evening at 8 p.m. The meeting was opened with prayer by Mrs. Lois Ruff.

The Bible study entitled "Two Prophecies in a Home" was given by Mrs. Helen Moser. The "talk-about" on evangelism was given by Mrs. David Motter.

Members attended the joint meeting. Two visitors were in attendance.

### Extended Meetings Offered To Men In FH Patrol Schools

The Florida Highway Patrol today issued an appeal for applications from which to choose men to attend future patrol schools and hold of extended instruction including a lowering of height standards, and pay increases from \$75 to 200 per month for recruits while in training.

Comdr. H. N. Kirkman said that height requirements have been reduced from five feet and 10 inches to five feet and eight inches in the past not to be able to get into the school.

### General Meeting Of Womens Society Held

The WSCS general meeting was held in the Chapel on Wednesday morning at 10 o'clock with a delicious luncheon in the dining hall.

Mrs. Herbert Beck was in charge of the program and gave the study book "The Christian's Life" by Mrs. M. J. Whitaker.

## VFW Auxiliary Plan Membership Drive For August & Sept.

The Ladies Auxiliary to the VFW Post 8181, met Monday night at the home of Mrs. Annie Clayton for their regular business meeting.

Tentative plans were made to hold a candy sale in the near future to raise funds for their share of the expenses for the 1957 National Encampment to be held in Miami. The "kick-off" meeting date has not been set.

### City Continues To Pick Up Stray Dogs

City Manager Clarence Robinson reported this week that a total of forty-eight dogs have been picked up by the city since rabies was first discovered in this area.

Of the forty-eight, forty-five of the animals have been destroyed. None of the animals which have been picked up have had tags of any kind by which they could be identified.

### HOLLYWOOD BY THE SEA

In preparation for Hollywood's 30th Anniversary Season the city has re-lanscaped its famous Young Circle Park with the bank-shelf activities. Beautiful flowers add a great variety of palm trees and tropical plants have replaced the ordinary shrubbery and trees found in typical city parks.

County Offices To  
Be "At Home" In  
About Six Weeks

Moving day, which will take several county offices back into the remodeled court house, has tentatively been set for late September.

The county commission Monday heard that "M" day would probably come in about six weeks if no further delays were experienced in completing the court house renovation which has been underway for a year.

County Attorney Harry Johnston told the board that a date for the move should be set since the time must be known to be included in legal notices which are prepared several weeks in advance. Johnston had reference to public hearings which are set weeks in advance but which must include the location of the meeting place. The commission tentatively transacts its business at the Datura St. office building.

Offices which will move back to the court house include the sheriff's department, the county commission, tax assessor and tax collector.

Dale Lee Injured In  
Drainage Accident

Mr. Dale Lee of Belle Glade was injured last Friday in West Palm Beach when a drainage bucket narrowly missed crushing him fatally. Lee was loading the drainage machine on a truck in preparation for moving it when the machine slipped from its position. The bucket slashed the side of his face cutting to the bone.

Lee was rushed to St. Mary's Hospital in West Palm Beach for treatment. Doctors found no evidence of fracture. He was later discharged from the hospital and is now recovering rapidly.

Suggestions To Aid  
State Survivors Of  
Deceased Veterans

Four suggestions to aid Florida survivors of deceased veterans in filing claims for death compensation and pension were offered today by Mr. Vernon S. Parker, manager of the Pass-a-Grille Veterans Administration Regional Office.

Mr. Parker said the Pass-a-Grille Regional Office now processes new claims for death benefits under a recent VA decentralization program. Formerly, these claims had to be sent to Philadelphia, Pa. for processing.

By following these four suggestions survivors will expedite the payment or rejection of claims, Mr. Parker said. The hints are:

1. If the veteran's death certificate does not contain a statement as to the cause of death, it should be accompanied by a certificate from the attending physician showing the dates of treatment and cause of death.
2. A widow filing a claim should furnish the record of her marriage to the veteran. If she of the veteran were previously married, she should furnish copies of death or divorce certificates to establish that previous marriages were dissolved.
3. If minor children are among the survivors, birth or

baptismal records are required, containing the names of both parents and date of birth. If the children were adopted, a copy of the court order of adoption is needed.

4. Parents filing a claim must establish their relationship to the veteran by furnishing VA with a certified copy of the veteran's birth or baptismal certificate containing the names of both parents and evidence of their dependency.

Mr. Parker said this evidence is required by the laws governing compensation and pension payments.

The miniature lamp bulbs used in 1954 by one division of one automotive company totaled 825 million candlepower, equivalent to the illumination used in 750,000 average American homes.

Plenty of Zip  
at a pip of a price

(It's a great time  
to buy a Buick!)

SERIOUSLY—where else can you get so much snap and ginger at such a peach of a price?

Where else can you get a big, high-powered, steady-riding hardtop like this '56 Buick Riviera—at a figure that's pretty close to what they're asking for similar models of the well-known smaller cars?

Nowhere else that we know of—which is one big reason why Buick outsells all other cars in America except two of those smaller cars.

BUT NIGHT ALONG with low price is something else behind Buick's big success: Buick is a lot more automobile for the money.

It gives you more room and luxury—more zip and power thrill—fine handling and sure-footed stability.

And it gives you something you can get in no other car—today's advanced new Variable Pitch Dynaflow. It's the only transmission in the world with the cruising thrust and the switch-pitch safety-surge taken from the modern plane's propeller.

So why wait any longer—when the time to take action is now, so you can start enjoying all the golden months of

summer and fall in a new '56 Buick? Now—when Buick prices are as low as—perhaps lower than—they'll ever be again.

Now—when your present car is at its peak of worth—and when today's high volume '56 Buick sales permit us to make you an even better trade-in allowance.

Come see us—and look into the car that puts you years ahead right now.

Come see us today—and discover the dilly of a deal that will make you wonder why on earth you waited as long as you did.

\*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick built today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

AIRCONDITIONING  
at \$500. NEW LOW PRICE
